**I. INTRODUCTION**

**A. General**

The City of Wheat Ridge (the “City”) Municipal Building is located in the northwest Denver metropolitan area, with municipal offices at 7500 W 29<sup>th</sup> Avenue, Wheat Ridge, CO 80033. The City’s area consists of about nine square miles of rolling land adjacent to Interstate 70 transportation corridor between Denver and the Rocky Mountains. The topography is somewhat unique, with a natural ridge traversing the City. The City is a suburban community of approximately 33,000 residents. The City is a home-rule municipality with eight council members, and a city manager and mayor form of government.

**B. Background**

The City has never contracted for these services; however, the City does have a documented inventory of sidewalks, curb ramps, bicycle/pedestrian trails, traffic control signals, and transit facilities.

**C. Objectives**

The goal of the self-evaluation is to verify that, in implementing the City’s policies and practices, the department is providing accessibility and not adversely affecting the full participation of individuals with disabilities. This self-evaluation and associated tasks and elements may also be referred to as an ADA Transition Plan. The goal of this RFP is to contract with a qualified individual or firm to provide exceptional evaluation and ADA transition plan writing services.

**II. STATEMENT OF WORK**

The actual services to be performed will be determined by the City, to include—but not limited to—the following areas:

The City of Wheat Ridge is required, under Title II of the Americans with Disabilities Act (ADA) and 28CFR35.105, to perform a self-evaluation of its current transportation infrastructure and develop policies practices, and programs in addressing this mandates. The self-evaluation will help identify what policies and practices impact accessibility within the Public Right of Way and examine how the County can implement improvements.

The self-evaluation also examines the condition of the City’s Pedestrian Circulation Route/Pedestrian Access Route) (PCR/PAR) and identifies potential need for PCR/PAR infrastructure improvements, including establishing priorities based on available resources. This will include the sidewalks, curb ramps, bicycle/pedestrian trails, traffic control signals, and transit facilities. Any barriers to accessibility identified in the self-evaluation and the remedy to the identified barrier are set out in this transition plan.

The City is seeking assistance from a consulting firm to develop guidelines and procedures for the ADA Transition Plan in response to federal and state ADA requirements, and also to reflect the City’s long term goals for accessibility and mobility. The consultant’s services must include fulfilling the goal of the Americans with Disabilities Act (ADA) Transition Plan for Curb Ramps and Sidewalks, and also to ensure that the City creates accessible paths of travel in the public right of way for people with disabilities.

The City's Transition Plan will guide the planning and implementation of necessary program, activity, and facility modifications over the coming years.

**DELIVERABLES:**

Given the complexity and need for a deliberate effort to follow through on the City's self-evaluation, this document should set forth all of the elements contemplated, and/or completed to establish a final and executable multi-year transition plan based on the City's available resources. This work will result in a commitment to the development and maintenance of policies, programs, and facilities that ensure equal access to all who work, reside in, or visit the City. Each section of the program policy shall be researched for best practices and recommendations for program inclusion that would adequately fulfill the mandates.

The City anticipates a need for the awarded consultant to attend two stakeholder meetings, and one presentation to our City Council members.

The document(s) shall be delivered first as draft(s), and a final document/policy report shall be produced following comments made by City staff.
